Bench Africa Offices

KARIBU

Welcome to the new 2017 Africa brochure.

Bench Africa has been organising safaris for thousands of Australians to Africa over the last 48 years.

Our company motto is "excellence through experience" and we try to achieve this in everything we do. Our consultants all travel to various parts of Africa every year to keep their immense knowledge fresh. Their passion is organising the tailor made African holiday that is perfect in every way and gives you the holiday of a lifetime.

East Africa has no winter as it is on the equator. It is a year round destination with the most wonderful and varied landscapes. You can have breakfast in semi-desert and lunch in alpine vegetation with different wildlife in each area. This makes every park in East Africa different according to the altitude.

We have a new 29 day Highlights of Africa experience, two new fantastic walking safaris in Zambia, new exotic safaris in Rwanda and new locally escorted safaris in Namibia and Ethiopia.

We also have all the favourites in this brochure and if what you want is not here, then just talk to our friendly consultants whose pleasure is to organise the safari of your dreams.

Mike Kirkland
Chairman

EXPLORE AFRICA WITH BENCH AFRICA

Here at Bench Africa in conjunction with our parent company Southern Cross Safaris in Kenya and our new office in Cape Town, South Africa, we can plan and facilitate your very own safari experience. Southern Cross Safaris in Kenya is one of the oldest owner-managed safari tour operators in East Africa, a company dedicated to providing the utmost quality of service and client care second to none. Providing stylish and memorable safaris since 1969 to literally thousands of clients, our reputation and philosophy is 'excellence through experience'.

ON LOCATION

With offices in Cape Town and Mombasa, we have experienced eyes and ears on the ground. This means that all of our Africa holiday packages and tailored itineraries are well researched. It also means that we can guide and help you arrange the perfect trip and guarantee you will glide effortlessly through both the booking and safari experiences.

THE BENCH TEAM

Due to the endless amount of information that is available to travellers today, Africa can seem like a daunting destination when trying to piece together your safari. The Bench team have all either travelled extensively throughout Africa or have lived there and can share this knowledge with you. We use this personal experience in the planning and discussions of tailored itineraries to suit all individuals or groups, from honeymooners to multi-generational families and friends, special interests, volunteering and adventure seekers, and select the perfect mix to maximise your enjoyment on safari and realise your 'once in a lifetime' dream to travel to Africa.

CHOOSING YOUR SAFARI

The type of safari experience you choose is a very personal decision. Considerations include the standard of accommodation, the style of travel, and the wildlife you hope to see. Kenya and Tanzania are great for viewing the 'Big Five' (lion, leopard, rhino, elephant, buffalo) as well as the annual wildebeest migration, whilst Uganda or Rwanda is the ideal place to trek endangered mountain gorillas. South Africa is perfect for combining a safari with luxurious accommodation and fine dining, Namibia for its incredible scenery, and Botswana for exploring the many waterways of the Okavango Delta. Finally, visiting the majestic Victoria Falls on the border of Zambia and Zimbabwe offers the perfect end to any visit to Africa. Our dedicated team of Africa experts will help you choose your dream safari.

WHAT TO EXPECT ON A SAFARI?

No two safaris will ever be the same. Typically, you will begin rising at dawn and after a refreshing coffee, you will depart on your morning game drive (early in the morning is when the animals are at their most active). Return to your property for a revitalising breakfast and then take the opportunity to relax and enjoy the facilities. Following lunch you will enjoy an afternoon game drive returning back to your property after sunset for a scrumptious dinner and a good night's sleep.

PEACE OF MIND

Bench Africa is a member of CATO (Council of Australian Tour Operators #T01008) and is an approved licensed Australian wholesaler with AFTA (Australian Federation of Travel Agents) and ATAS Accredited (#A10677). Furthermore, when travelling with Bench you can have complete peace of mind knowing there is a 24-hour emergency phone with one of our experts on hand.

ELEPHANT RATINGS EXPLAINED

Throughout the brochure we have given each tour or experience an Elephant Rating for you to use as a guideline. This rating system slightly differs from the international star rating system. After all, how can you compare a 5 star city hotel in Australia with a game lodge in the heart of the Masai Mara? In addition to the standard and service available at a property, our Elephant Rating also takes into account the mode of travel, the safari experience on offer, the exclusivity of the region or how much participation is involved.

SOCIAL RESPONSIBILITY

With a responsibility to ensure the future development in Africa and to make a difference on the ground, over the many years, Bench Africa has created a number of links with organisations devoted to the welfare of the African people, wildlife and environment.

Rhino Ark is a charitable trust founded in 1988 to support conservation in Kenya. Alongside the building of a game-proof fence encircling Mt Kenya, and creating jobs in local communities, Rhino Ark supports conservation education projects in local schools. www.rhinoark.org

New Hope Children's Home in Mombasa is home to abandoned or orphaned children aged between three and 16 years of age. Many of them are from homeless single parent families whilst other children's parents have died from HIV. www.newhopechildren.org

Satao Elerai Nursery School educates young Maasai children who would not otherwise have the chance to attend school. www.communityandwildlife.org

The East African Wildlife Society is the voice of conservation in East Africa. www.eawildlife.org

The Tsavo Trust is a non-profit organisation that assists the Kenya Wildlife Service in aerial and ground monitoring of the big tusked elephants in Tsavo where 80% of the world's big tuskers live. www.tsavotrust.org

TAILOR MADE SAFARIS

Why not consider your very own private safari? We have the flexibility to tailor a personalised trip to suit your needs, travelling when and where you wish and choosing from a range of small boutique camps and lodges off the beaten track. No matter where you go you will still find elegance, ambiance and top quality service, ranging from luxury 'Out of Africa' styled tented safari camps to the larger game lodges and more moderately priced hotels.

RAIL JOURNEYS

Southern Africa is blessed by the legacy of comprehensive rail tracks left by former colonists, with a large network covering South Africa but also stretching into neighbouring countries and as far north as Tanzania and Kenya in East Africa. Highlights include the Rovos Rail, referred to as 'The Most Luxurious Train in the World', and the South African travel icon, The Blue Train. With journeys from 2 to 15 days, why not consider incorporating a rail journey into your African experience.

FAMILIES

The popularity of family safaris to Africa is booming with parents and grandparents wanting their families to experience a fun-filled holiday with the added educational aspect of the animals, bush environment and African culture. In South Africa there are several malaria-free areas that add to the attraction of taking young children on safari without worrying about certain medication. Many of the lodges and camps throughout East and Southern Africa now welcome and cater for families.

SELF-DRIVE

Hiring a car in either South Africa or Namibia is much easier than you would expect. With a range of vehicles available and the ease of driving on the left, self-driving between areas gives guests the flexibility to move at their ideal pace and stop for sightseeing detours whenever desired. Tailoring an itinerary, a self-drive journey will allow you to make the absolute most of your holiday at an affordable price.

ZIMBABWE & ZAMBIA

The superb Victoria Falls discovered by explorer Dr Livingstone and named in honour of his monarch Queen Victoria will always be the highlight of any visit to Zimbabwe or Zambia. Perched precariously on the border between the two countries they are a leisurely walk from excellent accommodation on both sides of the river. No trip to the region is complete without an evening cruise down the river sipping white wines, enjoying the African sunset while herds of elephants bathe nearby.

HIGHLIGHTS

THE VICTORIA FALLS

One of the most spectacular Natural Wonders of the World and UNESCO World Heritage site draws in visitors year after year. Dividing the borders of Zimbabwe and Zambia, the Zambezi River dives headlong into a sheer-sided canyon forming the Mosi-oa-Tunya – 'the smoke that thunders' creating the largest curtain of water in the world.

HWANGE NATIONAL PARK

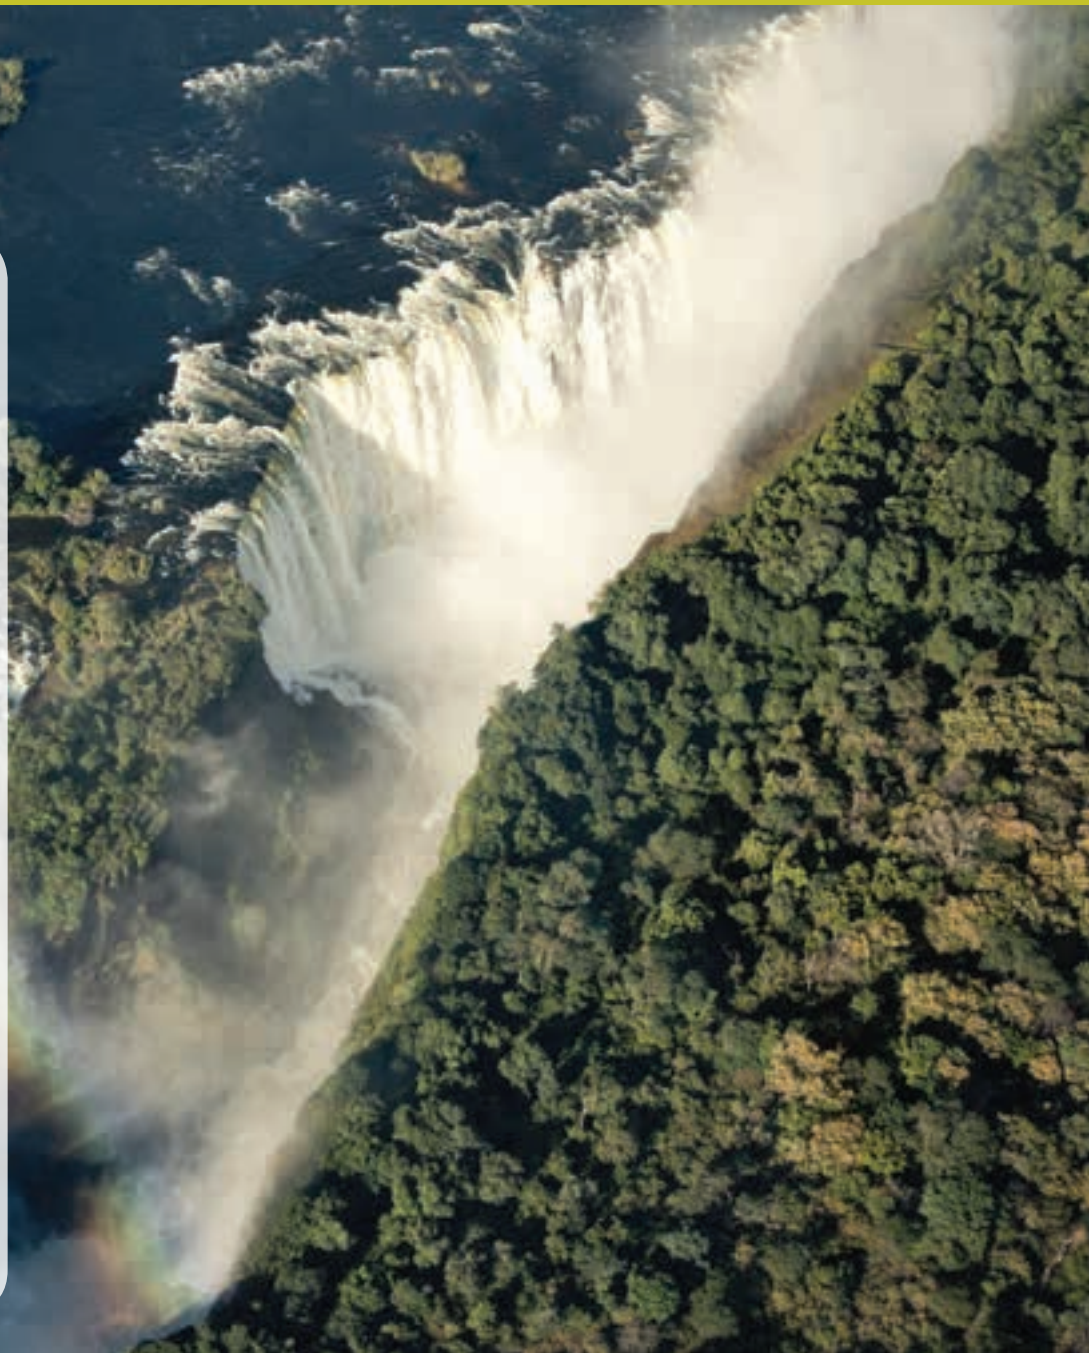

The Park is Zimbabwe's largest and also the third largest in Africa at 14,600 square kms, offering walking, driving and horseback safaris as a popular way of seeing the wildlife. Easily accessible from Victoria Falls by road, the drive is approximately three to four hours. The months of July to October offer some of the best game viewing, as the bush is dry and the wildlife congregates around the waterholes.

LOWER ZAMBEZI NATIONAL PARK

Situated on the banks of the Zambezi River in the southeastern part of Zambia, the Lower Zambezi was declared a National Park in 1983 and is still unspoiled today. Its distinguishing features are the rugged escarpment to the north and the 120 kms of river frontage with numerous islands, lagoons and floodplains which attract most of the wildlife. With only a few small safari camps and lodges situated within the Park, the experience is unique.

SOUTH LUANGWA NATIONAL PARK

Zambia's most famous wildlife sanctuary, the South Luangwa, covers over 9,000 square kms and is dominated by flood plain and savannah. It is one of the best locations in Africa to experience a walking safari. Permanent safari lodges located near to the river are the main bases for safari activities but there are also a number of seasonal bush camps on offer in the more remote areas.

BOTSWANA

A water wonderland of wildlife and scenery, Botswana boasts the unique opportunity of observing wildlife whilst paddling through the Okavango Delta in wooden-hulled boats, or experiencing Africa's biggest herds of elephants, huge concentrations of buffalo and thousands of hippos residing around the Chobe River.

HIGHLIGHTS

OKAVANGO DELTA

Declared the 1000th UNESCO World Heritage site, the Delta is the largest inland delta system in the world and is a maze of lagoons and islands covering some 15,000 square kilometres. It is world renowned for its biodiversity and contrasts – a must see on any African safari. It is also home to an abundance of wildlife making it one of the most popular tourist attractions in the region.

CHOBE NATIONAL PARK

Some 11,700 square kilometres of the country's northern frontier is considered to have the largest concentration of elephants roaming within the boundaries of a proclaimed National Park.

KWANDO & KWARA CONCESSIONS

This vast unspoiled wilderness extends from the Okavango Delta, northward to Kwando and eastwards to Savuti and Chobe. Both the Kwando Concession and Kwara in the Okavango Delta have substantial permanent water that sustains life in an otherwise inhospitable environment. A unique wilderness experience.

MOREMI GAME RESERVE

Almost one third of the entire Delta is covered by the Moremi Wildlife Reserve, a diverse eco-system consisting of riverine woodland, floodplains, wetlands and reed beds, mopane forest and dry savannah woodland. Here the permanent waters of the Okavango embrace the Kalahari thirstland.

LINYANTI WILDLIFE RESERVE

This private reserve in one of the most remote, pristine and inaccessible parts of Botswana, is bordered by the Linyanti River in the north and the Chobe National Park in the east.

MAKGADIKGADI PANS

The large pans are the most visible remnants of a lake formed more than five million years ago. During the rainy season the 'thirstlands' are transformed, attracting a spectacular array of birds and dramatic migrations of wildebeest and zebra.

KENYA & TANZANIA

For sheer weight of numbers and species of animals and birdlife, the East African wildlife reserves of Kenya and Tanzania are arguably the world's best and most rewarding. The open grasslands offer excellent game spotting opportunities and the phenomena of the annual migration of wildebeest and zebra between the Serengeti National Park in Tanzania and the Masai Mara Game Reserve in Kenya, is one of the world's most remarkable sights.

HIGHLIGHTS

MASAI MARA GAME RESERVE

Undoubtedly the most famous game park in Kenya, the Masai Mara is home to the 'Big Five'. Between July and October each year the Great Migration occurs when millions of wildebeest travel north from the Serengeti plains in search of fresh pasture. Followed by predators, the migration is one of the most impressive natural events worldwide.

AMBOSALI NATIONAL PARK

Situated below the most famous symbol of Africa, Mount Kilimanjaro, lies Amboseli National Park, covered by savannah and acacia scrub where the animals stand in silhouette against the majestic mountain. Towards the centre of the park is a series of swamps, fed by underground rivers running off the mountain and it is here where the main concentration of wildlife occurs.

SAMBURU GAME RESERVE

Rugged and remote, this wildlife reserve lies within the fascinating semi-desert area of Kenya's Northern Frontier District. The Samburu Game Reserve is physically dramatic with the Ewaso Nyiro River as a winding centrepiece. On either side of the river, a gallery of forest acacia acts as host to a multitude of birdlife with some of Kenya's rarer species.

SERENGETI NATIONAL PARK

This is one of the world's last great wildlife sanctuaries with over three million animals. It is from here that the famous migration begins its legendary trek into the Masai Mara. The best time to see game is between January and February before the long rains occur from April to June, when the animals then start to make their way north.

NGORONGORO CRATER

The Ngorongoro Crater, UNESCO World Heritage site, is one of the world's greatest natural spectacles with its magical Garden of Eden setting and abundant wildlife. The largest perfect caldera in the world, this outstanding wonder is only one of the attractions within a vast and diverse conservation area bordering the Serengeti National Park to the north and west.

DAY 2 - MASAI MARA GAME RESERVE

Today you will enter the Masai Mara to track the most vulnerable of the big cats, the lion and cheetah. Tracking big cats takes time and often you are required to travel long distances. After lunch visit a traditional Maasai village. (BLD)

LION (*PANTHERA LEO*) & CHEETAH (*ACINONYX JUBATUS*)

The lion population is inferred to have undergone a reduction of approximately 43% over the past 21 years. Cheetah population is roughly 6,700 adult and adolescent animals distributed across 29 subpopulations worldwide. Of these, 1,960 adults are found in Eastern Africa. The very existence of these two big cats is becoming increasingly vulnerable.

DAY 3 - MASAI MARA - SAMBURU GAME RESERVE

After an early morning bush walk, fly to the Samburu Game Reserve flying through the Great Rift Valley. On arrival, your guide and host Saba Douglas Hamilton and her team of elephant experts will greet you. Stay two nights at Elephant Watch Camp. (BLD)

Elephants are highly intelligent, sentient and emotional animals, which thrive in close-knit family units – just like humans. Learn more about their lifecycles, their migratory routes, observe their complex emotions and how self aware they really are and above all just how vulnerable their existence is to loss of habitat and ivory poaching.

DAY 5 - SAMBURU - LAIKIPIA

Today you will fly to Laikipia. Dependent on the time of year and location of African wild dog, you will either stay at Sosian Lodge or Laikipia Wilderness Camp. (BLD)

DAY 6 - LAIKIPIA

AFRICAN WILD DOG (*LYCAON PICTUS*)

Wild dogs have disappeared from much of their former ranges in Africa. Their population is currently estimated at approximately 6,600 adults. Population size is continuing to decline as a result of ongoing conflict with human activities and infectious disease.

DAY 7 - LAIKIPIA - LEWA WILDLIFE CONSERVANCY

Today fly to the Lewa Wildlife Conservancy. Stay two nights at either Sirikoi Camp or Lewa Safari Camp, dependent on the season and the proximity of the black rhino. (BLD)

During the months of November to June, the Great Migration moves through Tanzania. In November the herds head south and by early December the migration begins to move into the Ndutu region of Ngorongoro. By February the calving season begins. From April to May the herd migrates north into the Serengeti National Park and towards its Western Corridor and the Grumeti River. The cycle is then complete when in early June/July the herd migrates back into Kenya's Masai Mara. Contact one of our experts to arrange a Tanzania Migration Safari.

RWANDA & UGANDA

Although perhaps not as well known for general wildlife viewing, Rwanda and Uganda are renowned for the absolutely unique experience of gorilla trekking and the prolific population of primates – many not found in other African wildlife regions. Both countries have a wide variety of general wildlife with the Queen Elizabeth National Park being famous for its tree climbing lions at Ishasha.

HIGHLIGHTS

BWINDI IMPENETRABLE NATIONAL PARK

Home to about half of the world's population of the endangered mountain gorillas, this designated UNESCO World Heritage site is located in the southwestern corner of Uganda. Situated in hilly countryside, this area is one of the few large expanses of forest in East Africa where lowland and montane communities merge.

QUEEN ELIZABETH NATIONAL PARK

The park spreads over an area of 1978 square kilometres, in the western region of the Great Rift Valley. It is a home to a variety of wildlife including elephant, lion, hippo, buffalo, baboon and birds. In the southern part of the park is Ishasha where there are tree climbing lions and one of the largest surviving natural forests in Uganda.

JINJA & KIBALE NATIONAL PARK

The source of the White Nile is found near the town of Jinja on the shores of Lake Victoria. The impressive Bujugali Falls offer a world-class spot for white water rafting and many attractions. Bench Africa cannot be held responsible for these changes. Should this occur at any time until departure date, you will be notified as soon as possible, and regardless of deposit or total payment having been made, any increase is to be paid by the client. If such increase is unacceptable, the client may cancel the booking, though, in so doing, is still liable to pay any cancellation charges imposed by our suppliers.
